

# ESTC2007

1<sup>ST</sup> EUROPEAN SEMANTIC TECHNOLOGY CONFERENCE  
May 31 - June 1 2007 Hofburg Redouten Säle Vienna Austria

## Sponsorship at ESTC2007

We are pleased to offer the opportunity to be a sponsor of the 1<sup>st</sup> European Semantic Technology Conference to be held in Hofburg Redouten Säle, Vienna, Austria, May 31 – June 1, 2007.

ESTC2007 aims to be the European platform for bringing together those who use Semantic technologies in their business, those who implement Semantic solutions and those who build Semantically-enabled products. So far, existing events around Semantic technologies have been mostly academically oriented. With the technology becoming more mature and deployed, the need for a more industrial and commercially oriented event is evident.

ESTC2007 provides an excellent opportunity for your organization to be associated with this innovation driven technology market, characterised by strong market growth and commercial opportunities.
